WORK EXPERIENCE

Full Stack Developer Intern
Jayblues Technologies

10/2024 - 01/2025   *Mysore(On-Site)*

As a Full Stack Developer Intern at JayBlues Technologies , a leading software development firm specializing in scalable web and mobile solutions, I contributed to the development of the Bindu Tours and Travels web application.

Achievements/Tasks

- **System Design & Architecture** : Worked on developing and optimizing end-to-end system architecture for web applications (Bindu Tours and Travels), ensuring scalability, performance, and system integration using HTML ,CSS,JS.
- **Database & Server Management** : Managed database systems (MySQL/PostgreSQL) for efficient data storage and retrieval, while ensuring high availability and system performance in production environments.
- **API & Backend Infrastructure** : Designed and developed RESTful APIs and backend services, ensuring robust system communication and smooth integration of various components in a distributed architecture.

Web Developer Intern
Prodigy Info Tech

09/2024 - 10/2024   *Mumbai(Remote)*

During my internship at Prodigy Infotech, I gained hands-on experience in full-stack web development, completing four key projects:

Achievements/Tasks

- **Responsive Landing Page**: Designed and developed a fully responsive landing page, optimizing for mobile and desktop devices.
- **Weather Application**: Integrated a third-party API to create a weather application that dynamically displays weather data based on user input.
- **Tic Tac Toe Game**: Developed an interactive Tic Tac Toe game application using HTML, CSS, and JavaScript, implementing logic for two-player gameplay.
- **Stopwatch Application**: Built a functional stopwatch using JavaScript, focusing on dynamic UI updates and event handling.

SKILLS

`HTML` `CSS` `JavaScript` `Python` `SQL` `Bootstrap` `Reactjs` `MySQL` `PHP`

PERSONAL PROJECTS

Bindu Tours And Travel Website (10/2024 - 12/2024)
- **Front-End Development** : Developed the **Bindu Tours and Travels** responsive website using **React** , **HTML** , **CSS** , and **JavaScript** .
- **Responsive Design** : Ensured the website is fully responsive, providing an optimized experience across different devices and screen sizes.

Staybnb Travel Website (12/2024 - 01/2025)
- Developed the **Staybnb Travel** responsive website using **React** , **HTML** , **CSS** , and **JavaScript** . Focused on creating a user-friendly interface, seamless navigation, and responsive design for an optimal experience across all devices.

Weather Application (09/2024 - 10/2024)
- Developed a **Weather Application** using **JavaScript** and the **OpenWeather API** to fetch real-time weather data based on user location. Implemented a responsive design with **HTML** and **CSS** for seamless user experience across devices.

COURSE

Full Stack Engineer at Green Filed Training Academy (08/2024 - 12/2024)
Completed a Full Stack Engineer course at Greenfield Training Academy , gaining expertise in front-end (HTML, CSS, JavaScript, React) and back-end (Python ,SQL) technologies, along with hands-on experience in building end-to-end web applications.

CERTIFICATES

SQL Course Certificate From QSPIDERS.

Front End Development By Great Learning.

ChatGPT and AI Workshop Certificate From be10x.
